ANTI-COUNTERFEITING POLICY

KP Components limited is an independent manufacturer of cable assemblies and related electronic devices.

KP Components only buy from OEM's or franchised distributors or registered stockists. Our purchase orders state all parts must be supplied with certificates of conformity. All suppliers have minimum ISO9001.

KP Components purchasing department ensure all suppliers ISO or AS certificates are within date. This is checked every month via our KPI's

Counterfeiting is an unlawful activity causing serious problems that undermine the electronics components industry resulting in financial losses, disruption, injury or even death in extreme circumstances. The dramatic increase in counterfeit parts in recent years have also resulted in extra costs to the industry in mitigating the risks by this trade. KP Components are committed to playing their part in ensuring that counterfeit parts do not enter the market via the channels we operate in. Our integrity is vital to the reputation of our business so helping to keep counterfeiting stock out of the marketplace is a key element in our business strategy.

KP Components has a quality control system in place that ensures all the stock we handle is physically inspected and all supporting documentation is rigorously scrutinised. Should KP Components come across counterfeit goods we will not hesitate to report the company and/or individual trying to sell these goods to the relevant authorities as well as law enforcement.
